Officer P18 BENJAMIN C. BENTLEY

Date 11/27/2015

I, Ofc. Bentley, was dispatched to the Eickmeier residence, to speak with Julia in reference to her daughter Madeline being sexually abused by her father, Kevin Kramer (Reference CAD 15-17397). I reviewed the addition to this report made by Ofc. Kowalczyk, after he spoke with staff from Edwards Hospital on 11/26/15, before responding to the residence.

I arrived, with Sgt. E. DeGroot arriving a few minutes later and spoke with Julia, who told us the following information in summary. Julia stated that yesterday, November 26, 2015, Madeline was given to Kevin for visitation, as per the court order. Julia advised me that they arranged for Madeline to be returned home after 8 hours and then she would go with Kevin again in the morning on November 27, 2015. Julia advised us that she had given Madeline a bath before she went with Kevin. Julia advised us that upon Madeline's return, she was upset and crying and told Julia that her private area hurt. Julia stated that she asked

Madeline if Kevin touched her and that Madeline stated that he did. Julia stated she inspected Madeline's vaginal region and found it to be red, almost to the point of bleeding and found a yellow "gunk" present. Julia told us that she photographed the area at that time and then took her to Edwards Hospital. Julia was asked why she did not take Madeline to an area hospital, she stated that she does not believe they handle things as well and because the area hospitals are only "level 3 trauma centers" and out source these types of cases. Julia also told us that it seems this area does not have any agencies willing to work together on these types of cases and everyone is just trying to decide who will handle it.

Julia stated once at the hospital, the doctors were unclear as to if they would do a rape kit on Madeline. Julia stated that one doctor told her that she needed to have one done and another doctor told her she could not have one done unless she was sure that Madeline had been sexually assaulted. Julia told us that she did not have a rape kit done and she brought Madeline home and now today she is throwing up and she is always like this after being with Kevin. I asked Julia why she did not want police involved last night (as Ofc. Kowalczyk's report states, per hospital staff) and she advised us that she was never asked if she wanted police involved and always wants the police involved. Julia told us that she is tired of her daughter being abused and wanted to know about the visitation, as Madeline is suppose to go back to Kevin today. Julia was advised that we can't change a court order and that she knows the consequences of not following the order. Julia stated she understood. We advised Julia that this information would be documented.

Julia called later and asked about the visitation again, inquiring as to if I felt she would violate the order if she did not allow Madeline to go to Kevin today, since he returned her yesterday. I advised Julia that since it was a verbal agreement between them, she should probably let him take her again today, since today is part of the regular scheduled visitation to keep from possibly violating the order.

"gunk smell" to her vagina and she believes her father is doing something to cause this. I was also informed Eickmeier was seeking a rape kit be done. I informed staff and ER Dr. Sabir and the previous complaints and then showed him this case file. Staff that spoke with Eickmeier found her stories to be unbelievable. I advised ER staff I needed to respond to the police station for something and would return shortly.

I called DCFS and informed them of the situation and they stated a case worker would call back shortly.

While at the police station Eickmeier called and spoke with Sgt. Piscia again. She advised him she had left the ER because the doctor refused to help her. She stated the doctor seemed to be just some guy off the street that did not have a clue to what he was doing.

I returned to the ER and spoke with Dr. Sabir. Dr. Sabir stated he spoke with Eickmeier and she seemed to be "on a destructive path". He advised he offered to exam the child and Eickmeier told him she did not want her to be examined, but wanted it "wrote down" and "documented" that she smelled the child's vagina and smelled like semen. Dr. Sabir stated he was concerned for the child's safety. I advised him I had called DCFS already and was waiting for a return call. I advised him I would pass the information along that he had provided.

I received a call back from DCFS and explained to them everything that has occurred. I also advised DCFS that myself, Sgt. Piscia, Dr. Sabir and the ER staff that we were concerned Eickmeier's behavior was quickly getting worse and more erratic and that we felt it was just a matter of time until she might molest the child herself just to prove the child is being molested. I informed her it was our opinion the child needed to be taken into protective custody. DCFS stated she was going to call a case worker and label the incident "option needed" and someone would call me back shortly.

A short time later case worker Mark Jenkins called and was informed of the today's incidents. He stated to continue to document everything as they are working with the SA's office to come up with a solution.

Madeline and she stated that they were still talking to her and that they were looking for a number for Lisa Trevier who Julia claimed is her DCFS caseworker. I was able to contact Trevier and advised her of the situation. Trevier stated that she was just assigned the case this week and that she still had not been able to interview Julia. Trevier provided me with her cell number to give to the hospital and I called the hospital back. I gave the number to Tasha and asked that they call the police department to let us know what the outcome of tonights visit is.

A short time later I received a call from Edwards Hospital advising that Julia and Madeline had been sent home and no sexual assault kit was done. The nurse advised that the doctor did a visual exam on Madeline while Julia was changing her diaper and noted a small amount of redness but nothing to indicate abuse.

On 12/4/15 at 22:14hrs, Officer Paul and I (Officer Anderson) were dispatched to 2830 4th St. for a report of possible abuse of a child (Reference CAD 15-17894). Upon our arrival, we observed a running vehicle sitting in the driveway of the residence. We approached the vehicle to find Julia Eickmeier sitting in it with her daughter and an adult male subject. Julia exited the vehicle to speak with us. She stated that her daughter Madeline Kramer just returned from her father's house at 9pm. Julia said that Madeline told her that "daddy grabbed my crotch." Julia also mentioned that Madeline is showing other symptoms of being abused. Julia told us that she planned on taking Madeline to the hospital for examination, but she is now unsure if she should take her or not.

When asked what other symptoms Madeline was showing, Julia quickly changed the subject and stated that a doctor told her that Madeline could be "full on raped and not have any physical signs." Officer Paul questioned Julia about the validity of that statement. She became irritated and told Officer Paul that he was not a doctor. Officer Paul stated it was common sense and merely his opinion. She told him that she was not interested in his opinion. She did not reveal any further symptoms that Madeline showed.

Officer Paul spoke with Julia about her options for tonight. Julia was advised she could take Madeline to the hospital if she chose to do so. She was also advised that if she wanted to fill out a statement she could come down to the station and we would speak with her in an audio and video recorded room. Julia became agitated and stated that she would not be giving Officer Paul a statement tonight.

On Tuesday December 15th, 2015 I received a voicemail from Attorney Bob Steele advising that he represents Kramer and he requested a call back. I called Steele back but he was not in the office at the time of my call. I called a second time and left Steele a message to contact me.

On Wednesday December 16th, 2015 I spoke to Attorney Steele and advised him of my investigation. We discussed the current custody case and spoke briefly about the polygraph. I advised Steele that I did not believe that Kramer is sexually assaulting Madeline, but I wanted to have Kramer take a polygraph to confirm my belief and show his innocence. I advised Steele that I wanted to interview Kramer about the allegations, which he advised that he would speak to Kramer about an interview and let me know. I thanked Steele for his time and ended the call.

As of January 12th, 2016 I have not heard from Steele or Kramer about being interviewed.

Kramer is "dark and dangerous" advising that she had found letters in the past about Kramer wanting to "kill" her. Eickmeier stated that she believed that Kramer had killed Justin Pratt. Eickmeier made allegations that Kramer had possible sexually assaulted Madeline.

Reference CAD 13-15941 Eickmeier had taken Madeline to OSF in Peoria, Illinois and made a report that Kramer had sexually assaulted Madeline, but the report was unfounded, and the Peoria Police Sergeant was concerned with Eickmeier's "state of mind".

Reference CAD 14-2096 Eickmeier had reported that Kramer was "suicidal", and had threatened to "kill" her in the past. The CAD was unfounded and Kramer advised that he and Eickmeier were in an ongoing child custody dispute, which is why she made up the above information.

Reference CAD 14-11792 Eickmeier stated that Kramer had threatened to "hit" her and reported that Kramer is a drug user.

Reference report 14-16166 Eickmeier made an allegation that Kramer was sexually assaulting Madeline. Kramer was interviewed and denied any sexual contact, advising that Madeline had a diaper rash, which was confirmed by the hospital staff.

On Monday December 7th, 2015 I, Det. John Atkins, contacted DCFS Investigator Trevier and advised her that Eickmeier had made another allegation that Kramer had sexually assaulted Madeline. Inv. Trevier advised that she is aware of the recent report and she had met with Eickmeier last week. Inv. Trevier advised that Eickmeier had agreed to have an employee with The Center for Youth & Family Solutions assigned to help her with Madeline and the allegations. Inv. Trevier stated that Verl Johnson with Youth & Family Solutions would be assigned to the case.

Inv. Trevier advised that DCFS and Youth & Family Solutions goal is to get Eickmeier counseling or mentally evaluated for the safety of Madeline. I advised Inv. Trevier that I was planning to interview Eickmeier this week but I would hold off to see if Eickmeier will participate in the counseling sessions and their outcome.

On Monday December 14th, 2015 I spoke to Inv. Trevier who advised that YSB was assigned to the case instead of Youth & Family Solutions. Inv. Trevier advised that Judith Allen from YSB was assigned as Eickmeier's case worker. Inv. Trevier advised that Allen will assess Eickmeier and report back to DCFS. Inv.
